**SUPPLEMENTAL  
INFORMATION DISCLOSURE STATEMENT (IDS)**

MS Amendment  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

Pursuant to 37 CFR 1.56, 1.97 and 1.98, the attention of the Patent and Trademark Office is hereby directed to the references listed on the attached PTO/SB/08. It is respectfully requested that the information be expressly considered during the prosecution of this application, and that the references be made of record therein and appear among the "References Cited" on any patent to issue therefrom.

This Information Disclosure Statement is filed before the mailing date of a first Office Action on the merits after the submission of an Request for Continued Examination, as far as is known to the undersigned (37 CFR 1.97(b)(4)).

In accordance with 37 CFR 1.97(g), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 CFR 1.56(a) exists. In accordance with 37 CFR

1.97(h), the filing of this Information Disclosure statement shall not be construed to be an admission that any patent, publication or other information referred to therein is "prior art" for this invention unless specifically designated as such.

**SUMMARY OF NON-ENGLISH LANGUAGE REFERENCES**  
**CITED ON FORM 1449**

The following is an explanation of the relevance of each document cited on the attached Form 1449 and not written in the English language as it is presently understood as required by 37 CFR § 1.98(a)(3)(i).

Documents B1, B2, and B3, cited on the attached Form 1449 and titled "*Chargeuses Pelleteuses*," "*580 Ranger*," and "*Ride Control*," respectively, are directed to Case Corporation's Model 580 Wheeled Loader Machine. While these documents appear to disclose that Case's Model 580 includes a Ride Control Circuit, the documents fail to disclose the construction of the circuit itself.

Document E, titled "*Senkbrems-sperrventile SBV*," describes a counterbalance check valve of the kind which might be used in the hydraulic circuit of the present application. Doc. E does not suggest how such a valve may be used, or more particularly, how such a valve may be put in a hydraulic circuit for a wheeled loader with a ride improvement means.

Document F, titled "*Gute Aussichten*," is an example of a wheeled loader machine. It does not disclose a hydraulic circuit with a ride improvement means.

**CONCLUSION**

It is submitted that the Information Disclosure Statement is in compliance with 37 CFR 1.98 and the Examiner is respectfully requested to consider the listed references.

The Director is hereby authorized to charge any deficiency in the fees filed, asserted to be filed or which should have been filed herewith (or with any paper hereafter filed in this
